Car Fare, Incidentals Returned to Philadelphia Patrolmen.

North Pennsylvania bank, 29th and Dauphin streets, assumed large proportions yesterday, necessitating a hurry call for a detail of policemen from the 26th and York streets station. The run started Monday, following a rumor that the departure of one of the directors last week meant losses for the depositors.

With nearly 500 excited depositors, numbering many women, clamoring for admission, the directors of the bank, after a hasty conference, offered a reward of \$1000 for the arrest of the persons who started the rumor.

Dollar for dollar was paid to those who demanded it, according to Ralph T. Moyer, cashier.

\$8000 Carfare Returned to Police.
Reimbursement of \$8000 was made by Walter Gilbert, chief clerk of the bureau of police, to policemen, detectives and superior officers for money which they had expended during the two last months of 1915 and the first six months of 1916 for car fare and other incidentals.

Cool Wave Does No Good.
The 20 new cases yesterday, when the maximum temperature was 76 degrees, following seven cases on Sunday, nine on Monday and 12 on Tuesday, apparently shattered the theories that the cooler weather beginning Sunday has had any direct "beneficial influence" upon the prevalence of the disease.

LEGISLATURE TO PROVIDE FOR AID

Massachusetts Guardsmen Aspirants for West Point Are on Border.

BOSTON, Mass., Aug. 17.—A special dispatch to the Globe says: "With three aspirants for appointment to the military academy from his district now on the border with the national guard, representative Olney today arranged with the war department for them to receive the same examination at El Paso on October 12, as the other candidates will receive in Boston on that date."

The young men for whom the arrangement was made, are Frederick A. Ward, sergeant major in the Eighth Infantry; Robert E. Merrick, of Stoughton, with the first squadron of cavalry, and H. P. Sampson, of Hyde Park, with a machine gun company attached to the First Vermont Infantry.

Boston & Maine To Stop Half Pay.
President J. H. Huntis of the Boston & Maine railroad, has announced that in view of the war department's ruling that guardsmen having dependent relatives may get their discharge, the offer of half pay to employees at the border will cease August 21 in all cases except where there are dependent relatives and a man's discharge is delayed. In the latter case the half pay allowance will be continued through September.

Sixth Ruins Uniforms.
The Sixth took the field today for the war game on Marshall's Vineyard. The "enemy" was routed, but the main damage was to the Sixth's own uniforms, hundreds of dollars worth of which were destroyed, when the men moved over a plain recently burned over, with charred stumps and underbrush standing. Gov. McCall reached camp at West Tisbury last night.

Extra Session To Provide Pay.
An extra session of the Vermont legislature has been called for August 24, to provide money to care for the dependent families of national guardsmen now in Texas. The legislature will be asked to give guardsmen \$7 per month each and also provide state aid for their families.

Chief of Police Crippled With Sweaty Aching, Swollen Feet

Former Chief of St. Joseph, Mo., Tells of a Simple Way to Get Rid of All Foot Trouble and Odor.

John J. McManara, 6th and Olive Sts., St. Joseph, Mo., former Chief of Police, who had been troubled with his feet for years, made the following statement:

"Any man or woman who is troubled with tired, swollen aching, tender, sweaty feet can banish all their foot trouble with this simple recipe which they can apply at home.

Simply get about one ounce of Liquid Pedalava from any drug store. Apply to the soles of the feet with a piece of cotton just before retiring. It destroys all odor instantly, and your feet will be as well as they ever were within a few days.

I was on my feet almost constantly for years. At times my feet were so bad I could hardly walk my beat. I tried every foot remedy I could hear of, to no avail. Finally I tried the above simple remedy and I have had no foot trouble since.—Adv.

Favored by blue skies and a smooth sea, the engineers for rivers and harbors, from Washington, made an inspection of the Sandy Bay breakwater, Rockport, Mass., in which the United States government has spent \$2,000,000 for a foundation and which now is very much in need of completion.

Court Settles Presidential Race.
It has now been legally settled that President Wilson is to be re-elected. A ruling apparently to that effect was made in the Brockton, Mass., police court by Judge Herbert C. Thorndike, who by the way, is a good Democrat, being a member of the Democratic town committee in East Bridgewater.

He is an appointee of Ex-Gov. Walsh.

Exalderman Owen P. Davis, also a Democrat, was strenuously cross examining a witness when city solicitor Winfield M. Wilbur, Republican, interposed.

"Mr. Davis has asked every question except who will be the next president," said Wilbur. "There's no need of asking that," retorted Davis. "I know who will be elected."

"The court," said Judge Thorndike, "with a twinkle in his eye, 'is inclined to take the same view of the election as you do, Mr. Davis.' Thus was the matter decided.

Bride Delays Wedding.

To the surprise of the prospective groom, and the waiting minister, the bride, on her arrival at the clergyman's home, declined to fulfill the matrimonial contract and the two departed.

Several hours later they returned, after a heart to heart conference, but again she refused. Finally they were married by another minister.

The City of El Paso
Is the Center of Attraction

THE eyes of the world are today upon El Paso. Eastern men and Eastern capital are just beginning to realize the opportunities of the Southwest. With a large and continuous influx of strangers, seeing for the first time what this country is really like, El Paso is at last coming into her own. Will she leave you behind, running after the caboose, or will you jump on the cow-catcher and ride to prosperity?

You know, a large number of people in the North and East really believe this country to be a place where the wild-eyed cowpuncher rides through the streets every day, shooting up the town; where everyone carries a Colt .45 in his holster and goes out and shoots a horse-thief every morning as an appetizer for breakfast. They have had too much Diamond Dick and Broncho Billy and not enough real facts.

It Won't Last

This mistaken impression is being very rapidly taken away; for the first time a large number of people from other parts of the country are seeing the Southwest with their own eyes—and don't doubt that they are forming their own opinions. What will be the result? This: that capital from the North and East will, in the next few years, flow into El Paso as it has never flowed before. Business will be busier than ever, and the growth of this city in the next few years will exceed anything in her past record.

Use Your Own Eyes

Go out to the militia camps and see the thousands of people who are just being introduced to this Land of Promise. Look about you at the wonderful improvements that are under way NOW. Think of what the pacification of Mexico (which can't be far off) will do for the city. Investigate for yourself the new capital that has come into El Paso in the last few years. Notice the advertising we are now enjoying all over the country as a headquarters for the U. S. troops, and think of what that advertising will do for El Paso.

Now Ask Yourself This Question:

"Where can I find as good an investment as El Paso real estate is today? Where can I find as profitable an investment? Where can I find as SAFE an investment? The land will always be there, safe from theft or damage; there is no possibility of its failing to increase in value; prices are reasonable; am I overlooking a chance for judicious investment?"

If you really think the matter over, the answer to the last question must be in the affirmative. For authoritative facts and conservative counsel on these points, call on any of the firms listed below.

STOP! CALOMEL IS QUICKSILVER

It's mercury! Attacks the bones, salivates and makes you sick.

There's no reason why a person should take sickening, salivating calomel when 10 cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel, your money is waiting for you.—Advertisement.

Removes Hairy Growths Without Pain or Bother

(Modes of Today)

It is not necessary to use a painful process to remove hairy growths, for with a little delatone handy you can keep the skin entirely free from these beauty destroyers. To remove hair, make a stiff paste with a little powdered delatone and water. Spread this minutes rub off, wash the skin and the hairs are gone. To guard against disappointment, be careful to get real delatone.—Adv.
